REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Regarding claims 36, 37, and 38, the prior art does not suggest the assembly as claimed, including the combination of all the claimed elements, the combination including the socket assembled to hold the substrate and integrated circuit device in electrical and mechanical connection without the need for a connector separate from the substrate and integrated circuit device and the assembly being free of any containment structure between the substrate and the integrated circuit device surrounding the socket as claimed. Regarding claim 39, the prior art does not suggest the assembly as claimed, including the combination of all the claimed elements, the combination including the assembly being free of any containment structure between the substrate and the integrated circuit device surrounding the socket as claimed. Claim 40 is allowable for the reasons previously indicated. Regarding claim 41, The prior art does not suggest the assembly as claimed, including the combination of all the claimed elements, the combination including the at least one electrically conductive connecting element non-releasably attached to the connection surface as claimed, the socket comprising at least two resilient members having pad connection portions directly and non-releasably attached to the connection surface of the other of said first and second connection pads prior to assembly of the substrate and the integrated circuit device as claimed, said pad connection portions extending generally parallel to said connection surface of the other of said first and second connection pads and being attached in face-to-face contact with said connection surface as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
